

# Instructions to download software from AzureForEducation website

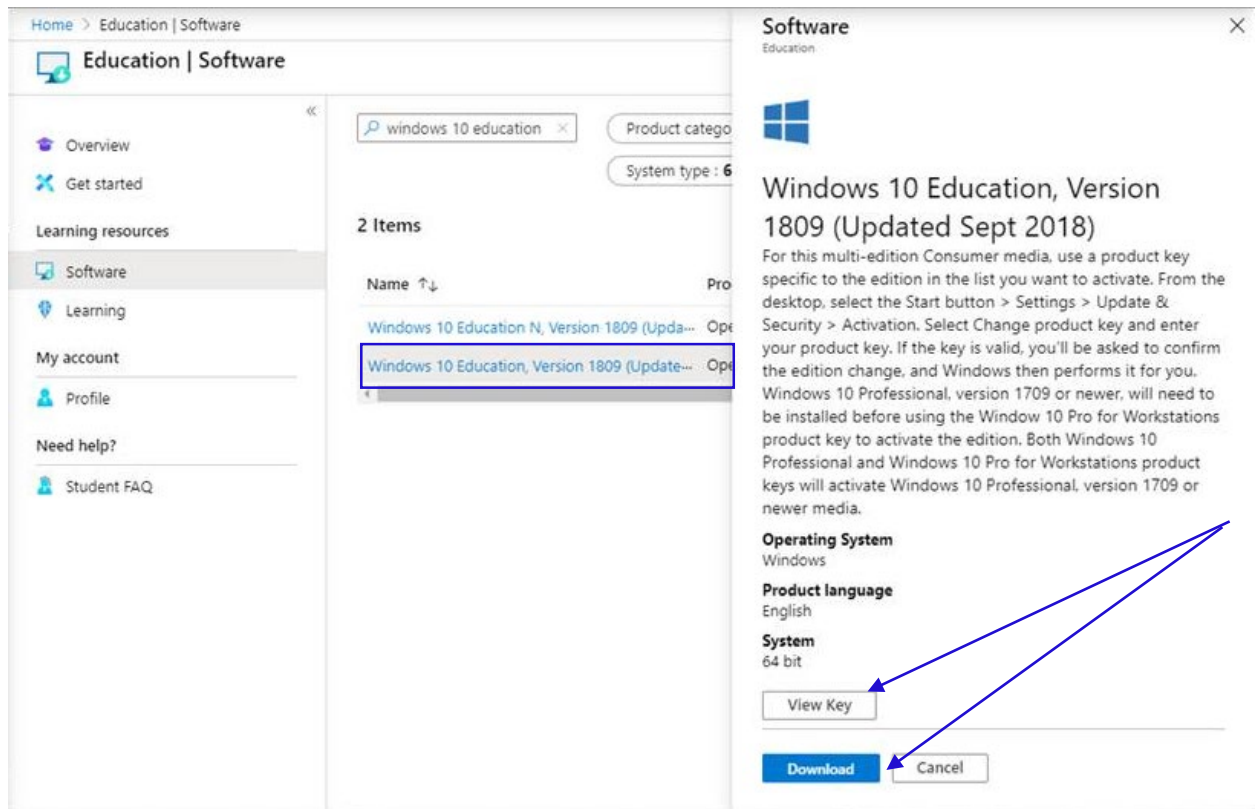

1. Browse to <https://azureforeducation.microsoft.com/devtools>.
2. Sign with your Swinburne email, i.e. xxxx@student.swin.edu.au

3. After successfully signing, if you are required to register your account, simply follow the provided instructions to register. Once the registration is done, you will have access to a range of software.

4. To build NA and ENSA Virtual machines, you need to download Windows Server Standard / Datacentre, and Windows 10 Education. Select the software you need to download and save its Product key.

5. The duration for downloading a software is depending on the software size and your Internet speed. So, if your NA/ENSA scheduled lab session is for installation or building virtual machines, it is recommended to download the Windows 10 and Windows Server 2016 software prior to your lab sessions.
